

SYSTEM SERVICE NOTICE

Fixed Service Costing & Policy Update

Good day!

Please be informed of an important update regarding your system:

Effective immediately after the recent Sidebar update, we will no longer be accepting free reworks or free revisions. Moving forward, all changes, customizations, and revisions to your system will be chargeable.

We have also upgraded your system storage from 2GB to 5GB to maximize capacity, improve performance, and help prevent lagging. This upgrade ensures our optimizations continue to work properly on your current system.

Kindly note that the 5GB storage limit must be observed. If the storage becomes overdue, or if additional data is added beyond 5GB, the system will enter maintenance mode.

If 5GB is no longer enough for your operations, we recommend switching from MariaDB to a Hosted Database to avoid storage-related issues and ensure smoother, more scalable performance.

FIXED SERVICE COSTING

Service Item	Fixed Cost
Monthly Retainer	PHP 15,000
Revisions / Changes (each)	PHP 5,000
Storage Overrun Recovery	PHP 7,000
Hosted DB Migration (we provide hosting)	PHP 40,000
Hosted DB Migration (you provide hosting)	PHP 30,000

Thank you for your understanding and continued trust. Should you have any questions, feel free to message us.

Respectfully,
